## Michel Paquette is a golf enthusiast with one goal, to make a living from his passion.

At the end of the 1990s, he traveled across the United States to acquire the appropriate tools to be able to teach golf. While in Arizona and Florida he obtained the required certifications from the USPGTCA and USGTF. Within a few months, he fulfilled his dream by creating his first golf school in Quebec.

His passion took him to New Zealand where he opened his second golf school. He then taught for several years aboard international cruise ships.

Returning to Quebec, he helped set up one of the largest junior golf programs in Canada (Premier Élan / Future Links).

After these great achievements, still as passionate and involved in the community, he continues to teach in order to share his knowledge and expertise.
